21. (NEW) The method of claim 20, wherein the step of sensing the presence of said car is accomplished when said car interrupts said magnetic field.

22. (NEW) The method of claim 21, wherein said mechanized robot further includes a control system comprising a relay connected to said magnetic sensor, further including the step of providing power to said robot upon sensing the presence of said car.

23. (NEW) The method of claim 15, wherein said spray gun is operable in the range of 1,000 to 1,300 p.s.i. of water pressure.

#### **REMARKS**

The Office Action mailed September, 2004 has been carefully considered. Claims 4-7, 16-20 and 22-24 have been cancelled without prejudice or disclaimer of the subject matter contained therein, and claims \*\*-\* have been added. The application now contains Claims 1-3, 8-15, 21 and 25. As the number of independent claims and the total number of claims has not increased, no new fees are required for the new claims.

In the Office Action, the Examiner made final the restriction requirement, and applicant has therefore canceled claims 4-7, 16-2 and 22-24 without prejudice or disclaim of the subject
